After nearly 3 years of renovations, this pearl of a finca residence is concealed amidst a nature-blessed Garden of Eden showing traces of human civilization in its most delightful and beautiful form, that being the shaping of a way of life and culture. The exterior areas of the 12.000 sqm sized property comprise principally of enchanting nature in its sheer unbelievable diversity. The charming pool area and picturesque terraces are well-nigh poetic in appearance, while illuminated paddocks and well-kept stables for a total of four horses add to the homeliness of the property. The finca is like a living piece of period history with traditional architecture, sensitively preserved, stylishly and innovatively enlarged and designed with refinement and comfort. Ancient ceiling beams and hand-cut floor-coverings have been enhanced by the installation of contemporary features such as a country house kitchen and underfloor heating, while the striking, original stonework has been interspersed with vast, sleek, panoramic windows and enlivens the idyllic ambience with a near exquisite outlook towards the superb surroundings. A perfect property, unpretentious, blissful and beautiful. This finca situated in the valley of Camino Verde in Benissa can be used for B&B, wellness or retreat center. Licence can be applied.
